to the City Clerk/District Secretary up to and including 2:00 PM on Tuesday, July 22, 2014.

The project includes replacement of Pump 102 and 105, and their engines and appurtenances. The pumps shall be horizontal split-case centrifugal pumps, identical in make and model to Pumps #103 and #106 to standardize parts and service providers. The dual-fuel (natural gas and propane) engines shall have adequate output power to drive the pumps through their full operating range. Additional work includes replacing the suction and discharge piping and valves; restoring fuel piping connections, new exhaust silencers, radiators and other cooling connections, wiring and motor controllers; and integrating the new engines/pumps with the existing SCADA system by installing new RTU/PLC with programing. Normal day-to-day operation of the pumps at the Booster Pump Station shall be maintained at all times. Any interruption of day-to-day operations shall be submitted for District approval 5 working days in advance.

City/District will permit the successful bidder to substitute securities for any retention monies withheld to ensure performance of the contract, as set forth in Document 01150, Contract Payments and incorporated herein in full by this reference, in accordance with Section 22300 of the California Public Contracts Code.

City/District will conduct a Pre-bid Conference and Site Visit at 9:00 AM on Wednesday, June 25, 2014. Bidders are encouraged to attend pre-bid conference and site visit. The Pre-Bid Conference and Site Visit will last approximately 1 hour. The conference will take place at the Water Booster Pump Station located at the District Corporation Yard, 3470 E. Third Avenue, Foster City, CA 94404.
