

Foster City Energy Opportunities

ENERGY EFFICIENCY & RENEWABLE ENERGY PROGRAMS

You're Invited!

Learn about these energy programs and ways to save money at our

Community Energy Workshop

Thursday,
October 13, 2016

6:30pm-8:00pm

Mist Room, Foster City Recreation Center

650 Shell Boulevard, Foster City California, 94404

Topics include:

- Energy efficiency rebates
- Renewable energy for your home
- Discounts for zero emission vehicles

Light refreshments will be provided. All attendees will be entered into a raffle for an energy gift.

For more information, contact:

Rachael Londer, County of San Mateo:
rlonder@smcgov.org or (650) 363-4077

Peninsula Clean Energy

Starting October 2016, Peninsula Clean Energy will be San Mateo County's official electricity provider offering cleaner electricity at lower rates. The program will be rolled out in three phases starting this October. Residents may also sign up to enroll immediately at <http://www.peninsulacleanenergy.com/>.

Peninsula Clean Energy offers clean and affordable local energy you can count on.

Bay Area SunShares

Foster City is pleased to offer community members the chance to go solar through Bay Area SunShares - a program offering free solar energy audits and discounted solar installations to anyone who works or lives in Foster City. Bay Area SunShares also offers discounts for electric vehicles (EV). Sign up by October 28th for a free solar evaluation, EV discount code, or options available to renters at, www.bayareasunshares.org.

Home Upgrade

Interested in saving energy at home but don't know where to start? The Home Upgrade program assists residents in learning about and making energy efficiency home improvements. The program also includes rebates for insulation, heating and cooling systems, and more. Learn more or get in touch with a free Home Upgrade Advisor at, <https://www.bayareaenergyupgrade.org/>.

PACE

PACE, short for Property Assessed Clean Energy, is an innovative financing program created to help property owners pay for energy efficiency, renewable energy, and water conservation upgrades. PACE enables property owners to spread the cost of a project over many years by tacking it onto their annual property tax payments. PACE programs are competitive and several programs are available in Foster City.
