Curtis: On behalf of the Foster City Residents for Responsible Development, I am sending you three (3) documents (attached) and asking that they be included in the public record and in the packets that will be distributed in support of the Special Meeting of the City Council, scheduled for May 18, 2015: Preliminary Review Request for Triton, Phase C.

The first document explains the major reasons our group opposes the Sares Regis proposal. The .pdf file name is "Reasonsfcrrdopposes"

The second document is a list of the names of over 1,800 people who have signed our on-line petition as of May 6th. The petition reads: "We oppose any additional high-density residential units until all previously approved construction projects are completed and we can evaluate their impact on Foster City's overcrowded schools, traffic congestion, and limited potable water resources." The file name is "Signatures(1872 as of 5-6-15).pdf"

The third document presents the 517 comments made by people who have signed the on-line petition. Note that 28% of the people who signed the online petition also left a comment. We encourage the staff and City Council members to read through these. Most are well-written, clear and to the point. The file name is "Comments(517 as of 5-6-15).pdf"
