
MEMORANDUM

TO: MARTINIQUE FILE (UP-88-001)
SUBJECT: APPROVED ROOFING MATERIALS
DATE: 02/13/2003

The Martinique Homeowner's Association has not applied for a Reroofing Prototype for their development. Therefore, the original roofing colors and materials are to be used for the development.

The original color board is available in the samples closet. Please check that the proposed roofing material matches what is shown on the color board. As the color board does not list the manufacturer brand or color, the applicant must submit a color sample of the material they are proposing. Following the submittal, please show Rick the proposed color and the sample board so he can determine if the proposed color matches what is shown on the color board.

After review the following material(s), the Community Development Director has determined that the following is consistent with the original color board:

- ❖ Owns Corning "Onyx Black"
Onyx

As new materials are approved, please add the manufacturer name and color to this list.
