

Join the County of San Mateo's RecycleWorks Volunteer Academy (RVA) in two *no-cost* workshops related to sustainability and resource conservation! Our workshops are interactive, hands-on and great foundational resources for building your sustainability expertise. All workshops are taught by experts in the field and are great ways to network with others like you who are passionate about sustainability. Light lunch will be provided!

You must be 14 years or older to participate, and a resident, business owner, employee, or student within San Mateo County.

workshops

Green Building Workshop

Sat March 26, 2016

Time: 10:00am-2:30pm

Venue: Devil's Canyon Brewery,
935 Washington St, San Carlos

The Green Building workshop will focus on reuse of building materials, solid waste diversion, and energy/water efficient systems. The workshop will feature a visit to a leading green building site in San Mateo County, **Devil's Canyon Brewery** in San Carlos, for an opportunity for a fun hands-on look at green building theory in practice.

Green Business Workshop

Sat May 14, 2016

Time: 9:00am-1:00pm

Venue: County of San Mateo,
Office of Sustainability,
455 County Center, 4th Fl, Redwood City

Through the Green Business workshop, business owners and participants will have the opportunity to work on their own business certifications under the County's Green Business Program and directly engage with a local certified green business, **Aly's on Main** in downtown Redwood City, to learn about their experience in the County's Green Business certification process, including the benefits and challenges of becoming a green business.
