

IMPORTANT NOTICE

WATER SYSTEM MAINTENANCE ADVISORY FOR CITY OF FOSTER CITY ESTERO MUNICIPAL IMPROVEMENT DISTRICT DAY #23 FIRE HYDRANT FLUSHING

This is to advise you that fire hydrant flushing will take place on **Tuesday November 8, 2016 between 8:00 a.m. and 4:30 p.m.**

Hydrant flushing improves drinking water quality and fire protection. You may experience some brown water coming out of your faucets during the flushing of the hydrants. We advise that you do not do any laundry or showering when flushing is occurring near your location. Although the water is safe to drink, you may wish to put aside some clear water to be available during the flushing. Once flushing is completed in your area, it is recommended that you run your tap briefly to make sure that only clear water comes out. It may be necessary to run the tap for a few minutes to remove any discolored water.

Your understanding and cooperation are appreciated during this operation. If you wish additional information or would like to discuss this with Public Works staff, please call the Corporation Yard office during business hours, 8:00 AM to 4:30 PM at **(650) 286-8140** or **Public Works Maintenance Superintendent Nick Leonoudakis at (650) 286-3551.**

Thank you,
City of Foster City/Estero Municipal Improvement District
