

Patrick J. Sullivan

Occupation: Incumbent

Education and Qualifications

For over 34 years, as a very strong believer in the importance of community, I have served Foster City, including 4 years on City Council and this past year as mayor. In addition, I worked with parks and recreation for over 10 years.

I have also served on regional committees, involving transportation, airport land use, traffic congestion, and overall security for our city and the region.

I am proud that the city completed the complex and extensive levee project on time and on budget. We also successfully hired a new City manager and new employees.

We've met the challenges of COVID, budget shortages, as well as rising water, utility, and housing costs.

Foster City faces similar issues as surrounding cities, such as pension reform and infrastructure challenges. To remain a strong city, we must build a solid economic base to offset the current deficits.

The incumbent council has established that civility and collaboration greatly facilitate the smooth running of the council's vital work.

I look forward to serving on the council again.

I ask for your vote in the upcoming election on Nov. 5, 2024.
