

### Candidate Statement - Shankar Kenkre

I raised my daughter in Foster City. As a resident of 33 years, I am deeply committed to our community's future.

My goals include working with the Council and staff to balance our budget by identifying areas to increase revenue while limiting expenses without compromising service levels, ensuring our new recreation center is built within budget and on time, and identifying and repairing single-point failures in our aging infrastructure.

With a renewed commitment to risk management and strategic planning, Foster City will be prosperous for many decades into the future.

I'm committed to neighborhood development, enhanced parks and amenities, studying commute patterns and making adjustments, improving our business environment, fostering community engagement, and establishing robust ethical standards with a code of conduct to guide decision-making and maintain public trust.

As a Project Manager, business owner, and technology expert, I bring a diverse skill set to the table. My passion and experience will help Foster City thrive and continue to be a wonderful place to live for years to come. I am committed to serving us today and enriching our community for generations.
