

Art Kiesel

Retired Business Executive

RECEIVED

2022 AUG 16 P 1:57

I have spent 20 years in local government addressing local issues, serving two terms as Mayor among other positions. I will bring in-depth and institutional knowledge to our city that few have.

OFFICE OF FOSTER CITY
COMMUNICATIONS/
CITY CLERK

Foster City has become a microcosm for accelerating economic growth and accompanying housing. I have never been a proponent of housing for the sake of housing. However, I have supported managed growth. Sacramento does not see it that way as they continue jamming mandates down local community's throats. I have a great concern for our children and grandchildren to ever own a home.

Foster City faces a financial structural deficit that cannot go unaddressed and there is still an unresolved issue regarding a new Recreation Center.

I want to protect our \$90 million investment in the levee. Bureaucrats are now trying to develop a regional solution which will not take into account the money and work we have put into our levee.

We need a better way to engage our residents and bridge the "disconnect gap" to implement a shared vision for our future. This will afford residents the knowledge needed to make more informed election decisions.

Vote for Art on November 8th.
