CITY OF FOSTER CITY
COMMUNICATIONS/
CITY CLERK

David Melchner
Candidate for Member for City Council – Foster City
August 4, 2022

Your City, Your Way! There are many issues which I will emphasize in my campaign for City Council. What's at stake in the near future? Our unique city has quite a few issues which need some serious attention. The effects will be felt in our pocket books should these issues go on unattended and ignored. Future county imposed taxes to residents for continuation of levee to surrounding bay area communities, current state of our sewer and water infrastructure versus future impacts if and when continued development takes place, middle school upgrade long overdue especially with added new elementary schools, traffic, congestion and these effects to residents by limiting their usage of public roads, future development without talks of increased taxes and permit fees to developers to help with the impacts caused by them, etc etc. Became resident in 1979. Attended Audubon and Bowditch. Played little-league baseball. Delivered newspapers. Coached basketball at Bowditch. Recent President of Foster City Lions Club. Member Masonic Lodge #400. Majored in business and psychology. Self-employed. Devoted to our community. Will represent with integrity and action after hearing out residents. Important to listen to the voices and opinions of the residents to attain constructive solutions to practical problems.
