

My mantra is: you cannot know where you are going unless you know where you've been. Foster City is 50 years old! As we look forward to the next 50 years, T. Jack Foster's vision should inform our future as we work together to ensure Foster City remains our "Isle of Blue Lagoons."

After growing up in San Mateo County, I graduated from the University of California, Davis, where I met my amazing wife. For 16 years I've worked alongside my father growing our family business specifying and selling Taraflex™ sports flooring to schools, churches, and community centers across Northern California. I am Chair of the Foster City Planning Commission, President of the Foster City Historical Society, and a graduate of the San Mateo County Leadership Council's CORPS Program.

As your City Council representative my goals are to activate Foster City's prized waterways and parks, foster small business, support our excellent schools, address the budget deficit, and modernize our city codes. With thoughtful, forward-thinking planning, we can minimize the impact of traffic and development on our community. My experience, integrity, and vision will bring Foster City Together.

Our family is honored to call Foster City home. It would be a privilege to serve. Respectfully, I ask for your vote. Thank you for your consideration. www.evan4fc.com
