Wednesday Enrichment Program

2024-2025 School Year

Grades 1 - 5

Welcome to the Wednesday Enrichment Program! This program will have a rotating group of classes in different categories to expand your child's fun and learning outside of the classroom.

The Wednesday Enrichment Program takes place on minimum day Wednesdays - your child will be dismissed from school based on the minimum day bell schedule, go to the lunch area to eat lunch, and then head to the assigned location of their class.

A photograph of a classroom with several children sitting at desks. In the foreground, a young girl with long blonde hair is smiling and raising her right hand. To her right, a young boy is also raising his hand. In the background, another girl is visible, also with her hand raised. The classroom has wooden desks and orange chairs. A large, semi-circular graphic with an orange border and a white center is overlaid on the bottom half of the image, containing the text 'Program Info' and a list of bullet points.

Program Info

- A child may only be registered for a class at the school they attend.
- Registration closes on a specific date to allow staff to finalize rosters with the instructors and the schools.
- If a class does not meet its minimum enrollment, it will be cancelled.
 - Your child will be transferred into their second-choice option that you indicated during the registration process. If that class is unavailable, you will be provided with a full refund.
- Transfers/refunds must be requested before the start of the second class and will be prorated based on the number of classes held, not attended. All refunds incur a \$10 administrative fee. For rained out classes, refunds will be processed at the end of the session.

Session 4 Classes

Around the World.....\$305 *with Mrs. Charlow*

We will be visiting different countries around the world and some cities too! We will learn the culture and different facts about the country. We will learn some words in their language also.. The children will be making a craft from the country they visit and will be sampling food from that area! They will not be repeating countries, so returning students will learn all new material! Material fee of \$10 due to instructor on first day.

Chess.....\$185 *Academic Chess*

Learn chess in a fun, engaging, and dynamic environment. Our philosophy is to instill the love of the game. As a result, we're able to witness firsthand our student's developing patience, strategic planning ability, and critical thinking skills. They also come to understand that decisions, both on and off the chess board, result in consequences. Class caters to all levels and all participants receive our exclusive workbooks. If you have any questions regarding the program, please feel free to call (888)44-CHESS.

Engineering & Design Thinking.....\$360 *Lando Interactive*

Students discover an excitement for engineering as they tackle fresh, real-world challenges with LEGO bricks—designing, prototyping, and testing creative solutions without step-by-step instructions. Each session offers multiple builds, from constructing domes that withstand asteroids to launching circus performers. After class, we share photos of each student's creations to spark conversations and so you can celebrate their progress. ***Please note this is a two-hour class.**

Flag Football.....\$260

i9 Sports

Learn the game of football in a fun, safe and structured environment. Our goal is to instill a love and appreciation of the game by using fun, engaging drills and short instructional games to teach and build on the foundational/fundamentals skills of the game in a progressive learning format. Skill development includes speed, agility, passing, catching, ball carrying, defensive angles of pursuit and more. If you have any questions regarding the program, please feel free to call (650) 396-3093.

Game Design & Coding.....\$360

Lando Interactive

Instead of burning out on repetitive coding puzzles, Lando coding students design multiple mini-games each class—blending creativity and fun while mastering sequencing, variables, conditionals, and events. From maze racers to platformers, every class has challenges that adapt to each child's pace and skill level, ensuring no one is overwhelmed or bored. After class, parents get links to creations so kids can show off or keep building at home. ***Please note this is a two-hour class.**
