

The City of Foster City is hosting its second informational meeting for residents and the business community to learn about the early stages of the Levee Protection Planning & Improvements Project (CIP 301-657). Members of the community are invited to join the discussion of this major project because the project will have a major impact on residents, property owners, and businesses. It is preferred that members of the business community attend this May 12 meeting. However, if you were unable to attend the first meeting, you are more than welcome to join us for this meeting. The meeting will be held in the City Council Chambers, 620 Foster City Boulevard at 7:00 PM. To RSVP to the May 12 meeting, please visit www.leveeinfomeeting2.eventbrite.com.

The meeting will also be available for live stream on [FCTV Live Stream](#) and depending on your local cable provider, Comcast Channel 27 or AT&T Channel 99.

To learn about the Levee Protection Planning & Improvements Project, please visit the following links for more information:
